SKILLS

Technical : Java ,Python ,MySQL , ReactJS , JavaScript , Spring Boot , JDBC

Soft Skills : Leadership , Teamwork , Growth oriented , Performance Focused

CERTIFICATIONS

- Full-Stack Development at EXCELR
- 4 Star Java Badge on HACKER RANK
- Full- Stack Development at GENESIS

SUMMARY

Fresher dedicated to improving skills through hands-on learning and development work . Adept at using Front-end web development and Java programming language to produce clean code and put my technical skills and enhance the overall database knowledge. Well-organized and collaborative team player with strong communication and analytical skills.

WORK EXPERIENCE

Genesis Training , Bangalore

Web Development Internship

Aug 2023 - Sep 2023

Implemented a diverse range of web applications, including a Calculator Application, React API integration, Student registration portal site, and interactive To-do list, by utilizing HTML, CSS, JavaScript and React JS skills , showcasing proficiency in modern web development technologies.

TECHNICAL SUMMARY

JAVA

Eclipse

- Very good in Programming concepts.
- Good understanding on OOPs basic level.
- Very good knowledge on Encapsulation.
- Great understanding in Inheritance, Overloading, Overriding.
- Some Knowledge in Polymorphism and Abstractiloon.

HTML , CSS , Javascript

VScode

- Good knowledge of designing of attractive web pages.
- Good understanding in making responsive web designs.
- Good knowledge in javascript functions.

ReactJS

VScode

- Good knowledge in HTML,CSS and Javascript.
- Good knowledge in building UI web pages.
- Good understanding in React Hooks.

PROJECTS

Smart-Property Finder

- Developed a full-stack real estate platform that allows users to search, list, and manage properties with advanced filtering and geolocation features.
- Built using Spring Boot (backend) and React/Angular (frontend), the application supports JWT-based authentication, real-time chat, and payment integration.

Health-Care Management System

- The Healthcare Management System (HMS) is a full-stack web application designed to digitize and streamline hospital operations, making it easier for patients, doctors, and administrators to manage healthcare services.
- The system allows patients to book appointments, access medical records, and receive notifications, while doctors can manage schedules, view patient histories, and update treatment details.

AI-Powered Resume Builder

- The AI-Powered Resume Builder is a smart web application that helps users create professional and optimized resumes using Artificial Intelligence (AI). The system offers resume templates, AI-driven content suggestions, job-specific keyword recommendations, and PDF export functionality.
- The application leverages Natural Language Processing (NLP) to analyze user input and suggest skill-based enhancements, job descriptions, and formatting improvements.
